DISMISS REMIGE CHARGES AT STOCKTON

IS WILLING WITNESS—TELEGRAMS FROM BROKAW PRODUCED.

NO NEW EVIDENCE PRODUCED

HEARING CONTINUED UNTIL THIS MONING AT 9 O'CLOCK.

The charges against Remige, one of the M. M. & E. gunmen arrested at Stockton, were dropped yesterday and he proved a valuable witness for the prosecution.

Emerson, Carlisle and Wilson were given their preliminary hearing yesterday afternoon at Stockton before Judge Gardner. They are all charged with having dynamite unlawfully in their possession.

Besides Remige, Sheriff Veale, John Birmingham and Chief of Police Briare of Stockton, all testified. Manager Sharon of the Western Union Co.'s office at Stockton also testified.

Sharon produced original copies of telegrams sent by H. C. Brokaw to Emerson and Carlisle, directing movements of dynamite. The evidence of the others was not new, most of it having been presented at the Emerson hearing at Martinez.

That all three men would be held to answer to the Superior Court was the opinion of Chief Briare, expressed last night.

The hearing was continued until 9 o'clock this morning.

Sheriff Veale and Birmingham returned to Martinez last night.

HENEY HAMMERS ON BOSS KELLEY

That M. J. Kelly is the political boss of Oakland, at whose door can be laid the blame for wholesale graft, was the statement of Francis J. Heney to a mass meeting of citizens in Piedmont pavilion, Oakland, last night. More people were turned away from the meeting than could crowd into the pavilion, which holds 4000.

Heney reiterated charges of graft in the administration of Alameda county that he has made before, and added new charges.

Varied and Clever Program Given at High School Rally

Scholastic Cut-ups Perform 14 Risible Stunts

Several scores of townspeople attended the largest athletic rally ever held by the local high school, in the gymnasium and on the school campus, out on Twenty-third street, last night. The rally marks an epoch in the student body activity history of the local institution, for it was conclusively demonstrated at the rally, which is universally conceded to be the most enthusiastic ever held here, that school spirit said to be moribund was very much alive.

Class spirit was demonstrated by the rooters of the different classes, vying with each other from their respecting rooting headquarters about the gymnasium. On the eve of the opening of the basketball season of the C. A. C. A. A. league, the two basketball teams, which go into a double-header with Centerville today, the greatest of enthusiasm was manifested, and the students in general fele sure of a double victory for their representatives today.

The firing of the big bonfire at 7:30 o'clock was preceded by a lockstep of the masquerading boys down Macdonald avenue. All of the fourteen stunts were given in the gymnasium, and began with the freshmen's, which was excellent. The geometry class followed, then the sophomores with a district school extravaganza. The juniors in an exceedingly clever stunt buried the senior class, but the seniors came back in the next stunt so strong that they carried the house. Their stunt embodied a brief summary of the history of the school's spirit, unselfish,

PASTOR PLANS TO ESTABLISH MISSION

REV. PETERSON TO AID SPANISH PEOPLE OF RICHMOND.

RUN EMPLOYMENT BUREAU

TO CONDUCT READING ROOM AND MEETING PLACE FOR THEM.

Plans for a mission where the many Spanish speaking people of Richmond may gather for religious observances and for social intercourse are being considered by Rev. P. E. Petersen, new pastor of the First Methodist Episcopal church.

A delegation of Mexicans, headed by a woman who has been engaged i amissionary work among them, attended Rev. Mr. Petersen's church last Sunday and later requested the assistance of himself and his congregation in establishing some kind of headquarters where they could have a common meeting place under proper conditions.

"I am told that there are a great number of these people who have no place for church or social meetings," said Rev. Mr. Petersen. "It seems a natural desire that they should have a place where they can meet, read their papers and spend their time under favorable conditions. The woman who is at the head of the movement comes well recommended by Dr. Burlingame of the Baptist church in San Francisco, as a missionary worker among these people.

"They have also called my attention to the problem of unemployment among them and think they may be able to maintain a sort of employment bureau as part of the establishment. There is a vacant building on Railroad avenue that would be suitable f orsuch an establishment as they desire. I am investigating their request and if I find the plan a worthy one will do what I can among my congregation to help them obtain the building and establish the mission."

CHARITY BALL PROVES SUCCESS

The charity ball given by the Richmond Concert Band last night at East Shore Park was a social and financial success. A godo crowd attended and all of them had a good time.

The band boys want to thank the public for their generous support of the affair, the proceeds of which will go towards helping the poor of Richmond.

Too much credit cannot be given the members of the concert band, who so generously give their services to charity twice a year. They ought to be supported by the people of Richmond.

PURELY PSYCHOLOGICAL.

The present hard times may be purely psychological. They may be the result only of our imaginations.

But in New York yesterday 3500 men applied for work at the municipal employment office and there were only four jobs to give out!

Those 3500 applications were filed by those who could be accommodated. Thousands were turned away.

No doubt it is a lot of comfort to that army to know that their poverty is "purely psychological."

ASK FOR THE MILITIA.

According to a Stockton paper the M. M. & E. has made two requests for the importation of militia into Stockton, and both requests have been turned down.

On the side of the M. M. & E. is money, power, "respectability." On the other side of the workers there is nothing but their own labor and the power obtained through organization.

But with all the advantages of the M. M. & E. it hasn't anything to combat the advantage of working for a principle. In its ranks there is only the esprit de corps of dollars. They lack what the war offices in Europe call "morale."

And so, to win out, they want the aid of the tin soldiers. It isn't probable that they will get them.

IN ARIZONA.

In Arizona twelve men are wondering whether it is legal or illegal for the state to kill them at the end of a rope.

The initiative measure abolishing capital punishment has apparently been defeated, but the vote is so close that the result won't be known for certain until the official count is complete.

All twelve men have been sentenced to the scaffold. If the measure is carried they will be permitted to live. If it is defeated they will be killed. Today it is legal to murder them. Tomorrow it may be a crime.

WHAT HE WOULD DO WITH IT.

Appalled by the gigantic expenditures of the nations at war, Dr. Frank Crane, writer, contracts to accomplish the following if the various war budgets are turned over to him:

I will buy every foot of land on the globe and present it to the people who work;

I will strike at the root of crime, idleness, vice and poverty, by giving to every worker living wages;

I will bring comfort and plenty into every hovel; light, liberty and joy to every slave;

I will enable every young couple to marry without the dread of want;

I will put every child on earth to school to be suitably trained for a life of competence;

Instead of millions of armed men marching to kill, I will organize vast armies of school teachers, and therewith overrun the earth;

I will have troopships of educators instead of battleships or destroyers, and have them sail to the seven seas, to make war upon ignorance, incompetence, laziness and animalism;

I will build parks, playgrounds, libraries, theaters and concert halls, until every son and daughter of man shall be as cheered as kings;

I will dress every human being as the nobles are dressed;

I will pile every home table with delectable food, fill every home book-shelf with books, and put music in every house;

I will endow the common people with the luxury of lords;

I will establish a church in every hamlet, and pay the living of every preacher of righteousness;

I will federate the nations and furnish funds for one international executive, legislative and military equipment, so that international wars shall be impossible and in time forgotten;

I will clear the way for the rapid advance of science, of art, of sound economics, of religion and of commerce;

I will so develop the resources of the land, and so encourage invention, manufacture and scientific distribution that there shall be nevermore any famine;

And I will brighten up this planet until it shines like the sun in its heavens, and all the stars shall wonder;

And shall sing, "still quiring to the young-eyed cherubim," and say: "Peace be within thy walls, O templed Telus, and prosperity within thy palaces!"

BEST MEN DON'T WORK IN MUNICIPAL SERVICE DECLARES U. S. OFFICIAL

PHILADELPHIA, Nov. 20.—Frederic C. Howe, United States Commissioner of Immigration at New York, in an address today declared the ownership of public utilities by big privileged corporations has resulted in the subordination of city governments to private companies.

He said this has kept the best trained and most efficient men in every city from entering municipal service. He declared that municipal ownership is necessary to save the highest grade men for municipal service.

PRESENT DAY PUBLIC HEALTH ACTIVITIES

By C. R. BLAKE, Health Commissioner.

Perhaps in no other field of scientific progress is the axiom that "the luxuries of yesterday are the necessities of today," more true than in that of public health. So various have become the branches of the many activities in public health work that their mere enumeration with but slight comments would occupy the scope of this paper. I will say a few words only about those which are of most importance to the public.

While formerly it was thought proper to tell your troubles to the police, it now seems to be the style to tell them to the health department, such messages by mail and telephone are so rapidly increasing that with us it has become part of our regular work.

Vital Statistics: Many of our customs and laws are the result of both custom and evolution. Vital statistics is one of these. No great importance was attached to this subject; births and deaths were considered as part of the laws of nature; the making of a record of every child born and a record of every human being who died was considered red tape. Experience gradually showed that this was not red tape, but an actual necessity. As this feeling gradually grew on the public, they began to comply and in the greater part of this United States it is an obligation, not only recognized, but made mandatory by law. The question how this can be best accomplished is a debatable one and the answer to this must to a great extent also rest on experience. Incomplete records are worse, at least for statistical purposes, than lone at all. It is a public delusion. The public believes where a registration is in force that all vital statistics are recorded. Therefore, the only way to ever obtain correct records is to make registration mandatory and to provide an adequate penalty for neglect.

In order to encourage the complete registration of births this department is making arrangements with a certain well-known bank of this city to open an account to begin with $1 to be deposited to the credit of every child whose birth is recorded with the department of health. It is hoped that this will encourage parents to see that their doctor has the birth of their children properly recorded, whenever it should occur.

Isolation and Control of Communicable Diseases: Nothing in public health activities has made greater progress and nothing has undergone greater evolution than is shown in the question of communicable diseases. There is no comparison between the methods used 20 years ago and those of today. In no other line of work has science played a more important part. With the aid of the laboratory, we have learned the cause of most diseases and with knowledge came the change in methods. We no longer quarantine diphtheria for an arbitrary period, but only so long as the germ manifests itself. As in diphtheria, so in other communicable diseases, our knowledge has spread and gradually our methods have changed.

Editor Daily News:

American public opinion has repeatedly and unmistakably declared itself opposed to war. Yet we tolerate, if not actually encourage, the things out of which war grows. While we are noisily collecting some thousands of dollars' worth of food, etc., for the starving Belgians, we are sending millions of dollars' worth of food and war supplies to enable the contending armies to make more starving refugees.

Our national government, whose official head solemnly proclaimed a day of prayer for peace, declares itself legally powerless to stop the speculators, who are starving America to feed the foreign war.

Protests loud and deep are heard in Richmond at the sending of our charity to the other side of the earth when an army of hungry unemployed is at our doors, but our local papers lately announced that our high school boys are to be taught and trained in the idea and tactics of human slaughter, and everybody seems to think it is just the thing. What is the matter with us?

LABOR NEWS

"In unity there is strength, united we stand divided we fall."

"NO PERMANENT LABOR PEACE YET," WILSON

DEPARTNENT SECRETARY SAYS INDUSTRIAL JUSTICE NUST COME FIRST.

CONVENTION BUSY WITH MANY JURISDICTIONAL DISPUTES.

PHILADELPHIA, Nov. 20.—The A. F. of L. convention was addressed today by William B. Wilson, secretary of the federal department of labor. Among other things Wilson declared that there could be no permanent industrial peace that was not based on industrial justice.

"I have been accused of partisanship," he said. "If securing justice for the man that labors, then count me a partisan on the side of labor."

Wilson said that the department had handled scores of labor disputes in the last year and ahalf and that all had been settled with the exception of a Pere Marquette strike, and the strikes at Calumet and in Colorado.

The jurisdictional fight between the electrical workers and the theatrical employes over the control of moving picture operators was won by the stage employes.

There was a lengthy dispute over the question of the cement workers being absorbed by the Hod Carriers' Building and Common Laborers' Union. Further efforts are to be made by the executive council to have the cement workers agree to the absorption.

The Railroad Telegraphers' Union has been denied extension of jurisdiction to include railway clerks.

A. J. Gallagher will go to New York next week to testify as to the merits of the minimum wage law for women and minors before the New York factory investigating committee.

Indications are that the convention will extend into the third week. So far no insurgent movement has developed.

MUNICIPAL JOB AGENCY IS BIG SUCCESS

WIKESBARRE, Pa., Nov. 20.—The Municipal Employment Bureau, established by Mayor John V. Kosek, several months ago, has been put to the test and has been declared a big success. In the past week Mayor Kosek found employment for 150 of the 400 idle men who appealed to him for help.

Some time ago Mayor Kosek decided that Fred Nye, his private secretary, had sufficient time to take charge of an employment bureau and the mayor's office has since been used as the headquarters of this bureau.

Mayor Kosek appealed to contractors, business men and coal company officials and asked for the opportunity of filling what vacancies occurred. His request was granted. Then the mayor announced that every man who was out of work could come to him and file an application, providing he was able to file a good recommendation also. Since that time several hundred men have been helped to jobs by the mayor.

JAPS OWN 12,726 ACRES OF FARM LAND IN CAL.

SACRAMENTO, Nov. 20.—California has 331 farms owned by Japs, according to the report of Geo. Robertson, statistician of the State Board of Agriculture. Besides this, the Japs have under lease 282 farms and own 218 town lots in different parts of California. The total acreage owned by them in farm lands is 12,726, valued at $609,605. The acreage under lease by them is 17,596. The town lots are valued at $235,675.

These figures were compiled with the aid of the State Bureau of Labor Statistics.

The Japanese of the state have 2548 places of business. The capital invested is $4,075,226. Sixty-eight per cent of them have an investment of less than $1000 each.

Aside from the lease holds here mentioned above there are a number of Japs who rent on a share basis lands in California which are not included in the report.

STRIKE OF 18,000 MEN THREATENED IN NEW YORK

NEW YORK, Nov. 20.—Stoppage of work on the entire dual rapid transit system, and calling out 18,000 men, is threatened by the action of the labor unions, revealed to the Public Service Commission Tuesday.

To each contractor building the dual system the Bricklayers' Union, in concert with all other unions affected by the subway and elevated work, has sent a letter saying that any contractor who continues to violate the labor law will be prosecuted.

The violations complained of are the employment of alien workers and the payment of less than the prevailing rate of wages.

LABOR MOVEMENT

Power That Is Lifting Mankind to Higher Civilization.

VALUE OF TRADE UNIONS.

They Are Moving the World Forward to the Noblest Conception of Human Liberty and Human Welfare—Work of the Department of Labor.

What do we mean when we speak of the "labor movement?" To some minds it conveys only the idea of the perpetual struggle for higher wages, fewer hours of labor, greater safety and better sanitary surroundings for the workers. That is a narrow interpretation. The labor movement is as broad as humanity itself. It reaches out into all of the ramifications of human activity. It is the motive power that is moving us forward to the higher civilization which will ultimately cause the "man with the hoe" to stand erect before his Maker and all the world, the peer of every other man not only in his rights, which we now theoretically concede, but in his physical and mental opportunities and endowments. The individual who puts forth his efforts to advance the welfare of mankind is, maybe unconsciously, a part of the movement. The societies which are organized to prevent the exploitation of children, to protect womanhood against industrial wrongs, to promote more comfort and better sanitation in the homes of the workers, to develop and to direct into proper channels necessary educational facilities, to create safe and sanitary conditions in the mines, mills and workshops, to arouse public sentiment in favor of collective bargaining between employers and employees, are all parts of the great labor movement.

The trade union, embracing, as it does, the work of all these and all the phases of human uplift which these do not embrace, is one of the great motors of modern times moving the world forward to its highest conception of human rights, human liberty and human welfare.

If we take as our definition of labor "any mental or physical activity engaged in not solely for pleasure" we are led inevitably to the conclusion that the movement that deals with labor must give its attention toward every word, deed or condition which injuriously affects humanity in order that a remedy may be found and the public mind so informed that it will accept and apply it. It is from this standpoint that we have approached the organization and the administration of the department of labor. The organic act declares, "The purpose of the department of labor shall be to foster, promote and develop the welfare of the wage earners of the United States, to improve their working conditions and to advance their opportunities for profitable employment." What a tremendous field this maps out for us! The department has been in existence for more than a year. It is in its formative state. The utmost care must be exercised that no false step shall be made. It is more important that it shall move right than that it shall move fast. In the period of its existence it has not startled the world by the complete solution of the labor problem. It is not likely to do so in the near future. But the help it has given in solving concrete problems as they have arisen has justified its existence. It has been heard in the inner councils of the administration. Its advice has been sought and given to congress on matters affecting the workers. It has gathered and given publicity to important facts concerning the conditions of those who toil. It has put forth effective efforts to protect the women and children of our country. It has enforced the immigration laws while protecting the immigrant. It has sought to impress upon the alien seeking naturalization the true spirit of our institutions. It has found employment for thousands who would otherwise have been unemployed. It has brought employers and employees together in scores of trade disputes, enabling them to work out their problems to their mutual advantage without industrial warfare. It has been consulted by employers and employees, by trade unionists and nonunionists, by sociologists and scientists; has freely exchanged advice in an effort to accomplish the purpose for which it was created and in many other ways has utilized its influence for the common weal.

This may not be much for a department of the government having such a wide field to work in, but too much should not be expected from a department newly organized and not yet in complete operation. Enough has been accomplished, however, to demonstrate its usefulness. The workers have long looked forward to the establishment of this department. May they have just grounds for hope in its accomplishments, faith in its future and charity for its mistakes is the wish of its present chief.—William B. Wilson, Secretary of Labor, in American Federationist.

Workers Share Profits.

The sum of $23,760 was distributed at the twenty-ninth profit sharing among the employees of Sir William P. Hartley's jam factory, Aintree, England. Since the inauguration of the scheme a total sum of $379,860 has been distributed. Sir William P. Hartley intimated that he would add a further sum to the workers' pension fund which he started five years ago, bringing his donations up to $50,000.

Pen Paralysis! Have you got it?

NO, we do not mean merely paralysis of the fingers. We mean another kind of paralysis far more serious; the kind that paralyzes the pen writer—not sometimes but *always*.

Pen writing in this age means needless time waste, needless labor waste, needless fatigue. Every one who continues to write with the pen in this day of the typewriter is placing himself under a heavy time and labor handicap, a handicap which means partial paralysis of all his energies.

The cure for pen paralysis, the new and certain cure, is the

VIOLINIST TO BE TREATED FOR DRUNKENNESS

Archie Matthews was yesterday sentenced to two years' confinement in a state institution at Ukiah for inebriates.

Matthews is a violinist and for a long time has been a familiar figure in the night life of certain cafes and roadhouses, where he entertained with his music. He became a confirmed drunkard, however, and it was necessary to have him adjudged an inebriate by Judge Latimer of the Superior Court, that he might receive treatment.

Although he was a physical wreck from drink, his hand had not lost its cunning with the bow and he was credited with playing the best when it could least be expected of him.

Francis X. Bushman in "Blood Will Tell" at the Richmond Theater Tomorrow Only

Without doubt the greatest racing scene ever taken for the moving pictures is shown in "His Last Dollar," which David Higgins wrote and in which he stars at the Richmond theater today.

The scenes are taken from the Saratoga Racing Club's park in New York and there were many gasps of excitement as the horses lineup at the wire and start forth on their Futurity race about the course.

Higgins, in his role of John Baxton, the millionaire, is exceptionally good. Two horses also play prominent parts in the racing scene, and as they come down the stretch neck and neck the excitement is intense.

In addition to the big vaudeville program for tomorrow, the management presents Francis X. Bushman in his latest play, "Blood Will Tell."

ADS ARE POPULAR READING.

A newspaper's information als so varied it contains news to suit everyone. Some years ago a person who read the ads in a newspaper or magazine was considered odd, and it is true the ads were crude, the articles advertised often being out of season or of a style and texture entirely out of fashion. But now it is different. Advertising furnishes the most interesting reading matter in the newspaper. It is instructive, teaching the public how to reduce the cost of living and at the same time get the best standard goods.

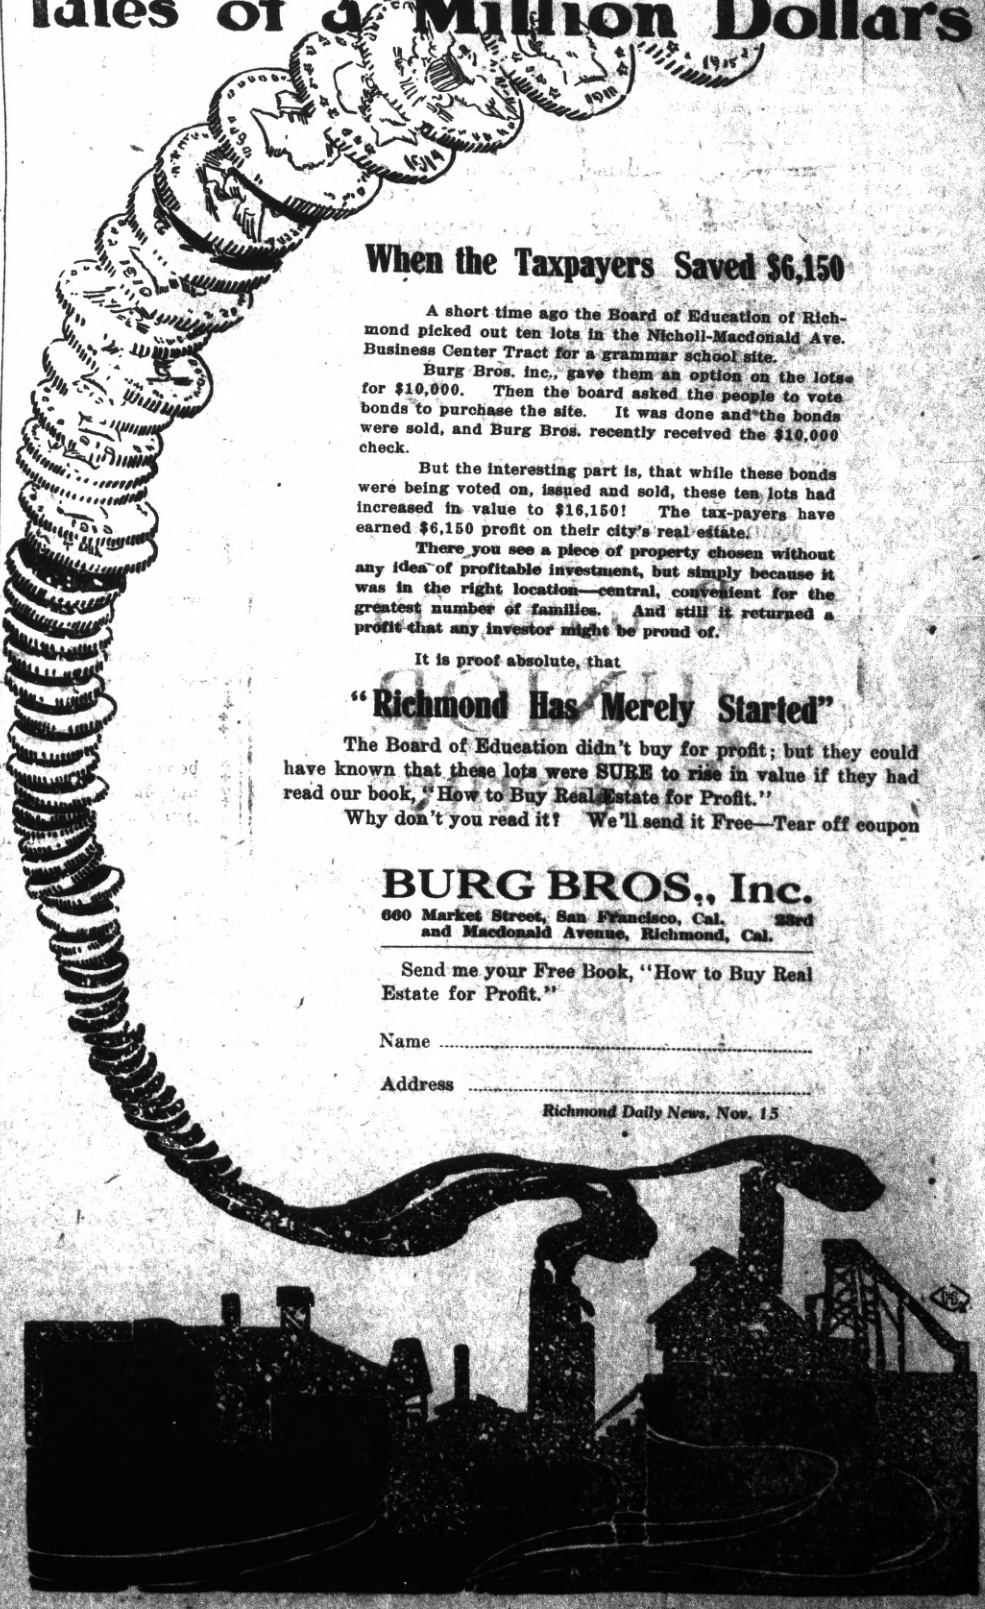
Tales of a Million Dollars



When the Taxpayers Saved $6,150

A short time ago the Board of Education of Richmond picked out ten lots in the Nicholl-Macdonald Ave. Business Center Tract for a grammar school site.

Burg Bros. inc., gave them an option on the lots for $10,000. Then the board asked the people to vote bonds to purchase the site. It was done and the bonds were sold, and Burg Bros. recently received the $10,000 check.

But the interesting part is, that while these bonds were being voted on, issued and sold, these ten lots had increased in value to $16,150! The tax-payers have earned $6,150 profit on their city's real estate.

There you see a piece of property chosen without any idea of profitable investment, but simply because it was in the right location—central, convenient for the greatest number of families. And still it returned a profit that any investor might be proud of.

It is proof absolute, that

"Richmond Has Merely Started"

The Board of Education didn't buy for profit; but they could have known that these lots were SURE to rise in value if they had read our book, "How to Buy Real Estate for Profit."

SPORTS

THINGS SOMEWHAT MUDDLED IN OUR MIDWINTER LEAGUE

Unless things are settled in the Midwinter league better today than they were yesterday the baseball fans will have to take a chance on scouting around and finding the games at the right time tomorrow.

Manager John A. Miller of the Outlaws informed us the other day he was trying to have the Calwa-Redmen game started at 11:30 Sunday morning, so it would be finished in time for the boys to see the Petaluma game.

We sighted Happy Bradley on the avenue yesterday morning and hove to alongside long enough to be assured in no uncertain terms that the said game was going to be pulled off at the regular time.

Last night an emissary from Winehaven blew in and assured us the game would be started at 10:30 on the grounds at Tenth and Lucas. Manager Cheek informed us by wire Thursday firmly and definitely that his Outlaws would caper on the Lucas street grounds at the regular time Sunday afternoon with the Point Athletes, after a morning game with the same team on the west side.

Take your choice.

Captain Bradley, who is on crutches, will start Offer in the pitcher's box Sunday for the Redmen. Offer has been catching, but Bradley will have a new catcher filling in.

RICHMOND IN REVIEW

: : : EDITED BY NEMO : : :

PROFESSOR Fitzmaurice Beandoodle,
A SCIENTIFIC sharp
AT Berkeley,
TODAY sent a report
TO THE editor of the nut column
THAT WEAVES closer the net
OF circumstantial evidence
ABOUT HOWARD French,
OF PISCATORIAL prominence.
FRENCH is a man
WHO IS ACCUSED of catching
A SIXTEEN-POUND bass
AT Rodeo.
HE HAD the fish cooked up
BY HENRY Sirrenberg
AND THEN called in
A CREW OF table wreckers,
WHO ATE it all.
AMONG this hungry gang
WAS Stonewall Jackson,
WHO SWORE he hadn't
HAD SUCH fun
SINCE HE was made
AN HONORARRY Native Son
THE day Bat Nelson
FOUGHT WITH Jimmy Britt;
AND NICK Hauser,
WHO rides around
WITH CHARLEY Desmond's
HORSE and buggy,
AND HARRY Payne,
WHO KNOWS the first name
OF every telephone girl
FOR 500 miles around,
AND SANDY Elsie,
THE DRY goods man,
AND CORENLIUS O'Hara,
WHO invented baseball.
WHEN THEY were through
THE EVIDENCE in this case
WAS all destroyed.
BUT HERE is what
WE WANT to know—
WHERE is that fish
THAT YOU had frozen
IN A BLOCK of ice,
COUNCILMAN Otto Ludewig?
IT LOOKED to us like
SIXTEEN POUNDS of striped bass.
IT disappeared
ABOUT the time
THAT FRENCH set out
WITH HOOK and line.
AND Davie Wilson,
DOWN AT Rodeo,
WHO HELPED French drag
HIS BIG fish out
AFTER that terrific
STRUGGLE
THAT LASTED 2 hours and 40 minutes,
HAS told us,
"THAT FISH fought so hard
THAT WHEN we dragged him
TO the boat
HE WAS STIFF and cold in death."
AND DAVIE further testified
THAT IN the fight
THAT FRENCH had with the fish
A BLOCK of ice
THAT FRENCH had brought
ALONG
WRAPPED in a sack
TO KEEP the bait
FROM getting warm,
FELL overboard.
NOW MAYBE you can see
WHAT we are driving at.
OUR GUMSHOE man
WENT down to Rodeo
AND GOT a pail of water
AND SENT it up
BY parcel post
TO THE professor.
AND HIS report today
ASSURES us
THAT HE HAS analyzed it
AND FOUND that it
CONTAINED condemning evidence
IN THE SHAPE of the constituents
OF ice.
HE FURTHER says
THAT HE could reproduce
THE ICE again
IF THE weather should
BE cold enough
FOR scientific work.
HE ALSO HAS worked out
BY mathematics
THAT IT would take
EXACTLY
TWO HOURS and forty minutes
TO MELT a block of ice
AROUND a sixteen-pound
STRIPED bass,
PROVIDED only that the ice
WAS IN THE right sized chunk.
SO THERE'S the evidence
WE promised.
WE WOULD have held
THIS expose
TILL later,
BUT WE have seen
ANOTHER block of ice
IN LUDEWIG'S window,
AND WE do not propose
TO STAND here silent
AND LET French catch
ANOTHER fierce striped bass.

NEW PLAYER WILL APPEAR WITH ELKS

Manager Luce last night definitely arranged to have right field in tomorrow's game with Petaluma held down by Caveney, a big league player, who is said to be a whizz both at fielding and with the stick. This arrangement will allow the local boys to have a pitcher in reserve, as Mickle will be kept ready should anything go wrong with Charley Burns' flinging arm.

If reports from Petaluma that have reached our city are to be credited, tomorrow we will see various capitalists walking around the ball farm waving bunches of currency. Street rumors had it yesterday that the Chicken City sports had sent up $500 to bet on the Bird boys.

Our star reporter, however, failed to locate the individual with the half-thou, or anyone who could swear they had seen the money.

To provide against any disagreement over the finer points of the contest, Jeff Woods of Vallejo will be on the job to handle the indicator. It's a thankless job at best, but the navy yard judge has received less criticism for his umpiring work than any one else who has appeared on the local diamond this year.

The Richmond Concert Band will add to the festivities and Otto Hess will sing for the crowd again.

An ad. in the Daily News is worth a great deal to the local merchant because the people who back this paper spend their money in Richmond.

EMERALDS MEET SANTA FE TODAY

The reorganized Emerald team that came out with a sweeping challenge several days ago, has been notified by Manager Charles Andrews that the Santa Fe team is ready to battle with them for money, marbles or chalk.

The big struggle is scheduled to start at 2 o'clock this afternoon on the First street grounds. According to reports from the war camps yesterday, Montoya and Mc riam will do the battery work for the Railroaders and Mount and Flynn for the Emeralds.

The rest of the Santa Fe lineup was given out as follows: Andrews, first; Cummings, second; Ford, third; Benson, short; Foley, left; Osborne, center; McCormick, right. And for the Emeralds: Moore, first; Hyatt, second; O'Brien, third; Childs, short; Barry, left; C. Burley, center; G. Burley, right.

ONE-LEGGED MAN IS STAR FOOTBALL PLAYER

One legged swimmers, baseball players and runners have frequently made their marks in the field of athletics, but the latest to come into prominence is a captain of a football team, who through some accident lost one of his legs. The Athletics, a football team of Alliance, O., claims the distinction of having as its captain a one-legged player. Virgil Oswalt is the crippled star's name, and he is the mainstay of the team, which is one of the fastest semi-professional aggregations in the state.

RUGBY PLAYERS WARMING UP

Local rugby fans are promised some top notch sport on Thanksgiving morning if the plans of the All Stars and the Independents are successful.

Besides a number of boys who have starred on local teams in the past, Curry and Harkins, who played with the Santa Clara team last year against the Australian All-Blacks, are scheduled to appear. Dr. F. E. Kelly, formerly of the San Francisco Barbarians, will go into action with the Independents, say the promoters, and other speedy players are expected to line up at the practice called for tomorrow at the Twetnty-third street grounds.

EYE INJURED BY SPLINTER

Ward Cummings, employed as an apprentice at the Santa Fe shops, was struck in the eye by a splinter of steel. He was treated at the Abbott Hospital, where Dr. C. L. Abbott took three stitches in the eyelid. The sight of the eye was not injured.

BASKETBALL SEASON OF C.A.C.A.A. OPENS TODAY

With a double-header between Richmond and Centerville at Centerville, and another fast game between Hayward and Livermore at Livermore, the fall basketball season of the C. A. C. A. A. league will be opened this afternoon.

The boys' five have been trained to a fine point and Captain Horvitz is confident that the team that journies to Centerville today is the best that can be picked in the school, in view of the loss of the valuable services of Dayna Cox and Clarence Cain. The following lineup was given out yesterday: Forwards, Cameron and Pierson; center, McAllister; guards, Brown and Horvitz; subs, M. Walters and Jones.

The girls' team are confident of winning from the down county girls and sure that their weeks of practice has developed the best of the school. Up to a late hour yesterday morning it was thought that the game could not be secured, but at noon time a long distance call was received, O. K.ing the former arrangements.

The girls' team will line up as follows: Forwards, Captain Anita Kreuger, Maryanna Mount and Ethel Hall; center, Thelma Milnes, Louise Fanning and Evelyn Ribertson; guards, Jennievea Moore, Vera Lautenschlager and Edith Adams; substitutes, Ethel and Jessie Lambrecht.

Both teams and the loyal boosters who will accompany them will leave from the high school at about 12:10 this morning by street car to Oakland and thence to Livermore by train.

As Scoop was out among them last night, and did not leave until the last one, all news of the Rally which was held at the high school last night will be found elsewhere in the paper.

BOND CO. MAY TAKE OVER CONTRACT

Whether the city council is to grant an extension of time to the Chicago Bonding and Surety Company, who bonded Just Anderson of the Western Reclamation Company when he took the contract to dredge Ellis slough for the city, or whether the council will advertise for new bids on the job and hold the bonding company for all damages incurred by the failure of Anderson to perform the work, will be discussed at Monday's night's meeting of the council.

Anderson's contract became void yesterday. The council has granted John H. Davis, representing the Chicago Bonding and Surety Company, until next Monday night to unravel the tangled affairs of the company. At that time Davis promised he will make the city some kind of a proposition. It is probable he will ask the council to allow his company to take over the work and complete it.

If such a request is made and sufficient proof is given that the work will be accomplished speedily and in good shape, Davis will probably have his request granted, as it would mean a long delay if the whole job must be put up for new bids.

Of chief interest in the affair to most persons is not the question of who will dig the channel, but who will pay the bills already incurred by the dredging company. Workmen have camped for more than a month on the dredge waiting for their wages. They have a suit in the federal court and present indications are that they will have to look to the court for the collection of their wages instead of receiving any payment through the bonding company.

HI SCHOOL RALLY

(Continued From Page One.)

boosting and well played, and topped off with an excellent parody on "Tipperary." All of the members of "The Great Class of the Great Year '15," covered themselves with glory, and especially Walter Hoffman, who played the part of Mr. King Knocker, the undertaker.

Among other stunts given by the various study classes, the vivisection by the physiology class, the mute marriage by the harmony class, the roaring success of William H. Neeley, city superintendent of manual training, in his original skit, "A Freshman Entering Manual Training"; the Stewart-Follett-Angell Guerneville hike take-off by the M. D. C.'s; the amusing tug-of-war by the "midgets" and "giants" of the "freshies," and the Divorce Trial, presented by the members of the Commercial Law class, were among the most noteworthy.

The opportunity was taken to present Ray Maddox '12, who coached this season's football team, with a stick pin in appreciation of his services. Athletic "R's" were also presented to Misses Thelma Milnes, Jennieva Moore, Maryanna Mount, Adaline Bryant, Lynette Means and Anita Kreuger, and to athletic managers, Clarence Brown, Philip Angell and Chester McAllister. A talk on football was made by Ervin Barr, on basketball by Abie Horvitz, on girls' basketball by Miss Anita Kreuger, and on track athletics by Clarence Brown.

The class yelling especially enspirited the rally, the various class yells being led by: Seniors, William Stewart; Juniors, Ervin Barr; sophomores Clarence Cain, and freshmen, Earl Lane.
